

# Technical Data

Concrete pump	Model	P 2020	P 2023
Max. concrete output, theor.	m <sup>3</sup> /h	90	150
Max. concrete pressure	bars	108*	95*
Max. number of strokes	per min.	30	30
Pumping cylinder (dia. x stroke)	mm	200 x 2000	230 x 2000

\* max. 85 bar when pumping through boom pipe

Placing boom	Model	KVM 24-4H
Pipeline dia.	mm	125
Length of end hose	m	3
Vertical reach	m	23.1
Horizontal reach from center of slewing axis	m	19.5
Hoisting angle		108°
1st folding angle		180°
2nd folding angle		270°
3rd folding angle		270°
Slewing range		370°

## Working range

\* Net reach on 2-axle truck = 17.18 m

\*\* On appropriate 3-axle truck
